

Editorial Note

The authors of the paper entitled *Remote sensing data fusion to detect illicit crops and unauthorized airstrips*, published in *The International Archives of Photogrammetry, Remote Sensing and the Spatial Information Sciences*, Vol. XLII-3, pp. 1363–1368, DOI: 10.5194/isprs-archives-XLII-3-1363-2018, have asked and ISPRS has accepted to formally withdraw the contribution, because for a number of reasons a pre-mature manuscript had been submitted as camera-ready. At least one of the authors had not approved submission, and as a consequence, the authors have come to the agreement to withdraw the paper.
