This Conference Proceedings volume contains the written versions of the contributions presented during the 10<sup>th</sup> International Conference on Smart City Applications.

The conference took place at Abdelmalek Essâdi University on November 11–13, 2025, in Tangier, Morocco. The event brought together international researchers, professionals, and students to discuss recent advances in smart and sustainable city solutions.

SCA2025 covered a wide range of themes, including Geo-Smart Information Systems, Digital Twins and 3D City Modeling, Smart Cities, Smart Environment and Agriculture, Intelligent Transportation Systems, Building Information Modeling, Smart Healthcare and Education, IoT and Wireless Sensor Networks, Big Data and Urban Analytics, and Smart Economy applications, Location Based Services, GeoInformation for Mobile, Wearable Technologies, Virtual and Augmented Reality, Smart Economy and Digital Business, Intelligent Learning Systems, and etc.

Keynote speakers and participants contributed valuable insights on emerging technologies and innovative approaches shaping the future of urban life.

Following a rigorous peer-review process, 22 papers presented at the conference were accepted for publication in the ISPRS Archives, ensuring their visibility within the global scientific community.

We sincerely thank all authors, participants, reviewers, session chairs, and the organizing and scientific committees for their contributions to the success of SCA2025. Their support was essential in advancing collaborative research and promoting sustainable smart city development worldwide.
